State of Hate in Rochester

survey

Why participate?

This 10-15-minute survey was designed to measure the increase or decrease in types of hate and bias according to perceptions and lived experiences. Organizations across Monroe County will be using the survey data to better understand how, and how much, hate towards certain protected classes has changed since 2022 (when we conducted our first State of Hate survey), and to identify where our efforts to address hate are most needed. **The survey will be live until March 23rd.**
